OakLeaf Medical Network

OakLeaf Medical Network exists to promote the independent practice of medicine and to help preserve the experience associated with independent practice for the individual consumer.

Established in 1994, OakLeaf Medical Network is a physician-directed, patient-centered health services network that links more than 175 medical professionals in 43 participating clinics in more than 25 communities in northwestern Wisconsin.

OakLeaf physicians are committed to providing their patients with the highest quality medical care and service. Their friendly neighborhood offices and clinics offer personalized healthcare. Even though the physicians and clinics practice independently, as members of the Network they share resources, information and make referrals to assure quality healthcare options for all who come under their care.

For more information on OakLeaf Medical Network providers and clinics call **715.839.9833** or visit **www.oakleafmedical.com**.

In 2001, a group of independent OakLeaf physicians established the **OakLeaf Surgical Hospital**, a private hospital designed exclusively for surgery. Today, 50 surgeons in 15 different specialties offer surgical procedures at OakLeaf Surgical Hospital on an outpatient or overnight stay basis. This unique state-of-the-art facility offers an alternative to the large institution when one is contemplating surgery. OakLeaf Surgical Hospital is licensed, Joint Commission accredited and Medicare certified.

OakLeaf Surgical Hospital

Eau Claire, Wisconsin

Established in 2001 by a group of independent physicians, OakLeaf Surgical Hospital is a highly respected, privately operated hospital. Specifically designed for the needs of patients having surgery, the 13-bed acute care surgical facility has seven surgical suites and two GI suites.

- State-of-the-art surgical facilities
- Outstanding personalized patient care
- Dedicated, friendly, professional staff
- Quiet, comfortable, warm surroundings
- Appetizing made-to-order meals

Most elective surgical procedures do not require the traditional hospital setting. Whether your surgery will be scheduled as outpatient or require an overnight or longer stay, our highly skilled surgeons, medical professionals and staff will be focused on you and your recovery.
